BACKGROUND

Barry Beavers Disabled Swimming Club is a registered charity that has been making a difference in the lives of people with disabilities since 1981. The club provides a safe, supportive environment where swimmers of all ages and abilities can build water confidence, improve fitness, and enjoy being part of a close-knit community.

With the support of Legacy Leisure's Community Grant Fund, Barry Beavers has been able to ease the burden of transport costs for families. For many members, reliable access to the pool is just as important as the sessions themselves, and this funding ensures that travel expenses do not prevent anyone from taking part.

This assistance helps the club remain a lifeline for families across the region.

By reducing practical barriers, the grant enables more consistent participation and encourages members to stay engaged with swimming over the long term.

The funding has strengthened the club's mission to promote inclusivity, wellbeing, and community spirit, reinforcing the belief that sport should be open to everyone.
