THE WALES POOL LIFESAVING TEAM

Working in Partnership
with your Local Authority

LegacyLeisure.org.uk

BACKGROUND

The Wales Pool Lifesaving Team represents its country in Royal Life Saving Society (RLSS) National Lifesaving Championships, competing at the highest level while promoting water safety and lifesaving skills. Based at Cardiff International Pool & Gym, the team plays a vital role in raising awareness of the importance of aquatic sport and lifesaving across Wales.

Through Legacy Leisure's Community Grant Funding, the team received financial support to cover costs associated with attending the Championships. This funding ensured that athletes could focus on their performance without the barrier of additional financial pressures.

The impact of the support was clear, with Team Wales achieving an impressive fourth place overall and collecting a total of 10 medals.

Their success not only highlights the dedication and talent of the athletes but also helps to inspire wider community engagement with lifesaving as a sport, and a life skill of unparalleled value.

By backing the team, Legacy Leisure has enabled the team to showcase its abilities on a national stage, while strengthening the profile of lifesaving and water safety within local communities.
