## BACKGROUND

**Founded in 1977, Hutton Football Club has been a cornerstone of grassroots football in the local community for almost five decades. The club's Under-8s section is one of the newest additions to its thriving youth programme, and thanks to Community Grant Funding from Legacy Leisure, it has been able to strengthen the team's resources and opportunities for young players.**

The grant was awarded to support the purchase of a new gazebo, ensuring that the Under-8s have access to the right facilities and training tools as they begin their footballing journey. This investment not only improves the quality of training sessions but also provides young players with a positive, structured environment to enjoy the game.

Hutton FC is building pathways for children to grow in confidence and ability from their earliest years in football, as the club explained: "The grant funding

will directly support a grassroots team, ensuring young children have access to a safe, inclusive and positive football experience."

By providing the right facilities for its youngest players, Hutton FC is not only safeguarding participation but also strengthening its role in the local community, encouraging more children to get involved in football and enjoy the benefits of sport from an early age.
