BACKGROUND

Channel Women Surf Club (CWSC) is a vibrant community group based in Llantwit Major, that helps women build confidence in the water while connecting through the shared joy of surfing. The club is dedicated to creating an inclusive and supportive space, opening up the sport to women of all abilities and backgrounds.

Legacy Leisure's Community Grant Funding has been directed towards training members to achieve Surf Lifesaving GB qualifications. By upskilling its volunteers in this way, CWSC is investing in the long-term safety and quality of its sessions, ensuring that participants can enjoy surfing in a secure and professionally guided environment.

"This investment will improve beach safety, diversify the surfing lineup, and empower women and allies to act as visible role models and champions of a more inclusive surf culture across the Vale of Glamorgan and Bridgend."

This qualification programme will also expand the club's capacity, allowing it to deliver a wider range of activities and support more women who are keen to try surfing for the first time.

In its support of CWSC, Legacy Leisure is strengthening a valuable initiative that not only promotes health and fitness, but also fosters confidence, resilience, and community through the power of the ocean.
