

Woodgreen Leisure Centre

The Grange Community Primary School

As part of our ongoing commitment to grassroots sports and community well-being, Legacy Leisure awarded a community grant to **The Grange Community Primary School**. The funding was allocated to upgrade their old football goals, specifically through the purchase and installation of new, high-quality football goals.

The Background

The Grange Community Primary School serves as a vital hub not only for its own students but for the wider community. The school's playing fields experience high footfall and are heavily relied upon by a large network of local grassroots football clubs. Prior to this grant, the existing football goals needed modernising to improve safety and effectively accommodate the growing number of teams, matches, and regional competitions taking place on the grounds.

OVERVIEW

The Investment

The community grant was utilised to purchase robust, competition-standard football goals. This investment was designed to immediately elevate the quality of the playing environment, ensuring the school's pitches meet the necessary standards for competitive local league play and large-scale tournaments.

Tangible Community Impact

The provision of these new goals has transformed the school's playing fields delivering clear, tangible benefits across multiple demographics:

- **Enhanced School Sports:** The primary beneficiaries are the students of The Grange Community Primary School, who now have access to improved equipment for physical education, after-school clubs, and inter-school fixtures, boosting engagement in physical activity.
- **Capacity for Local Clubs:** The upgraded goals comfortably support the large volume of local football clubs that rent or utilize the space. This guarantees that community teams have a reliable, high-quality venue for weekly training sessions and weekend matches.

OVERVIEW

- **Hosting Competitions:** The new goals enable the school to successfully host larger matches and regional competitions. This brings the wider community together, generates local pride, and provides young athletes with a professional match-day experience.
- **Health and Social Cohesion:** By providing the necessary support for grassroots football to thrive, the grant directly supports active lifestyles, teamwork, and social integration among local youth and adult volunteers.

This grant demonstrates a high return on investment in terms of community value. Legacy Leisure has positively impacted hundreds of local children, multiple grassroots sports organisations, and the broader community ecosystem.
