BACKGROUND

Long Eaton Acro is an acrobatic gymnastics club based at West Park Leisure Centre. Run entirely by volunteers, the community sports club endeavours to keep its fees low so it can support children from all backgrounds and abilities.

The club aims to provide equal opportunity for local children to attend the weekly sessions. In order to keep its membership fees as low as possible, the club runs fundraising activities to support the purchase of new supplies and equipment.

Legacy Leisure provided funding via its community grant scheme to enable the purchase of a new safety mat to further enhance the members' training experience, and help encourage more young people to the club by improving the equipment provision.
