BACKGROUND

Long Eaton Triathlon Club based in West Park Leisure Centre has been offering triathlon coaching to adults and children for 10 years. Funding from Legacy Leisure will provide essential equipment for members, and further education for its coaches.

The club prides itself on providing triathlon coaching services for adults and children of all abilities. With an ethos centred around inclusivity, the club also caters for members with extra needs, celebrating the diversity of its membership.

The club currently offers swim training at West Park Leisure Centre, and uses the local park for running and cycling training.

Community grant funding from Legacy Leisure will provide further education for the club's coaches, helping them to provide the best possible coaching and support for their members.

The funding will also provide essential equipment and tri suits for junior members, helping to drive inclusivity and reduce costs for parents.
