BACKGROUND

Sawley Cricket Club is a 1st Division community club, with four senior teams and an established junior training section for boys and girls of all ages and abilities.

Thanks to Community Grant Funding from Legacy Leisure, Sawley CC has been able to purchase essential cricket training equipment to support players of all levels. This includes:

- Flexi cricket stump with ground spike – a durable and adaptable training tool for all playing conditions
- Bowling machine balls – to help batters refine their technique and build confidence
- Pressureless cricket training balls – perfect for coaching drills and skill development
- Long-handled cricket ball thrower – to improve fielding precision and reaction speed
- Cricket reaction ramps – a training aid for hand-eye coordination and agility

"These additions will have a huge impact on our training sessions, giving players— young and old, experienced or new to cricket, access to the best possible equipment to improve their game, develop new skills, and enhance overall participation."
