

## KIDLINGTON & GOSFORD LEISURE CENTRE

# Oxford Junior Korfball

Oxford Junior Korfball is a fun mixed-gender team sport combining elements of basketball netball aimed at children aged 8+.

Korfball is a ball sport with similarities to netball, basketball, and ringball. The objective is to throw a ball into a netless basket that is mounted on a 3.5 m pole. Each team is composed of four female players and four male players.

# OVERVIEW

The grant funding we have received from Legacy Leisure will allow us to put a member of the team on a level 2 coaching qualification.

and also to purchase some of the new korfbal balls.

This will enable the team to provide **better quality** coaching along with better kit to encourage people to take part and also keep them engaged once they have been down to try it.

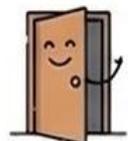

# BENEFITS

Mixed-gender teams create a unique sense of camaraderie and belonging.

Perfect for families, as adults and children can play together.

Korfball has a welcoming culture that's great for beginners, no matter your fitness level or sports experience.

And provides great social benefits.
