

BARRY LEISURE CENTRE

Wales Maharashtra Mandal

Wales Maharashtra Mandal (WMM) is a socio-cultural organisation dedicated to fostering unity, camaraderie, and goodwill among its members, as well as the wider Indian Community in Wales.

As a prominent South Asian cultural organization in Wales, WMM achieves its mission by hosting a variety of sports, social, and cultural activities. These include our annual Krida din (sports day) and Bhatkanti.

Our activities are specifically designed to enhance community health and well-being. This focus is particularly important as South Asian communities face an elevated risk of health issues like diabetes and heart disease, which is partly linked to lower rates of sports participation.

OVERVIEW

South Asians face a higher risk of diabetes and heart disease, partly due to lower sport participation. To address this, we are promoting accessible, culturally familiar activities that encourage whole families to be fit and active.

Our Activities:

Krida Din (Sports Day):

This event draws 50+ participants to play cricket, badminton, carrom, and football.

Bhatkanti (Walking/Wandering):

This activity promotes walking in Welsh landscapes for fitness and mental well-being.

Impact of the Legacy Leisure Grant Funding:

Grant funding will be used to reduce barriers, provide reusable equipment, and ensure sustainable benefits. This will help make a healthy, active lifestyle a permanent part of our community calendar.
