## Legacy Leisure Gender Pay Gap April 2019

Legacy Leisure is committed to providing a diverse and meaningful range of leisure and culture related activities for the communities in which we serve. Attracting and retaining a diverse workforce strengthens our ability to deliver these goals. We focus on a culture of inclusion and personal development and seek to provide opportunities for each individual to achieve their full potential and to be rewarded fairly, irrespective of gender.

At Legacy Leisure the mean (average) gender pay gap is $-12.57 \%$ and a median (average) gender pay gap is $-3.82 \%$. Therefore the gender pay gap reflects that female employees in Legacy Leisure are paid on average more than male employees.

The gender pay gap is different from "equal pay". Equal pay is the right for men and women to be paid the same when doing the same or equivalent work. The gender pay gap is the difference in the average earnings of men and women regardless of the job role or work.

Gender Pay Gap

| Difference between <br> men and women | Mean <br> Average | Median <br> Average |
| :---: | :---: | :---: |
| Gender Pay Gap* | $-12.57 \%$ | $-3.82 \%$ |

*National median average is $17.3 \%$.

Mean pay gap is the difference in average hourly rates of pay between male and female colleagues.
Median pay gap is calculated by ordering from lowest to highest the hourly rates of pay for each male colleague and separately the hourly rates of pay for each female colleague and comparing the middle value of each.

## Bonus Gap

| Difference between <br> men and women | Mean <br> Average | Median <br> Average |
| :---: | :---: | :---: |
| Gender Bonus Gap | $-6.82 \%$ | $25.90 \%$ |

This demonstrates the gender bonus gap is favourable to women employees.

Mean bonus gap is the difference in average bonuses between male and female employees, calculated from those who received a bonus in the year.
Median bonus gap is calculated by ordering from lowest to highest the bonuses for each male employee who received a bonus and separately the bonuses for each female colleague who received a bonus and comparing the middle value of each.

## Proportion of Employees Receiving a Bonus

| Gender | Percentage (\%) |
| :---: | :---: |
| Male | $11.86 \%$ |
| Female | $14.63 \%$ |

This demonstrates that more female employees received a bonus than male employees.
Proportion of Employees Receiving a Bonus compares the number of males and female employees who received a bonus to the overall number of male and female employees respectively.

## Pay Quartiles

The pay quartile data (upper, upper middle and lower middle) shows that overall, female employees earn more than male employees.

In the 2019 reporting period, Legacy Leisure had an overall gender split of $42 \%$ male and $58 \%$ female.

I can confirm that the information and data reported as at the snapshot date, 5 April 2019 is accurate in accordance with the requirements of the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017.
