## BACKGROUND

**Based in Weston-super-Mare, Sporting Western FC is a popular football club with very strong links to the local community. Founded in 1998 as a way for a group of friends to simply play football together, the club is going strong to this day with several senior and junior teams, and still remains focused on a community spirit.**

Sporting Weston FC under 10s was created in 2022 to encourage participation in the sport for children and younger players in the local community. The club wants to provide opportunities to their young players to progress through the club and develop lifelong friendships with their team.

The club prides itself on its inclusivity and accessibility, welcoming players from all backgrounds, walks of life and ability levels, including a number of players with disabilities. Nobody is ever turned away, keeping the community spirit well and truly alive.

The funding from Legacy Leisure has made a meaningful impact on the team and, by extension, the local community of young players. The club has been able to purchase football equipment, such as new footballs and goals for the under 10s team, enabling them to truly make the most of all of their training sessions.

The team firmly believes in the sense of community and the health benefits being part of a football team can provide their young players. The funding will help the young people of Weston-super-Mare to stay active and make new friends, all while taking part in the beautiful game of football.
