BACKGROUND

Speedway, a form of motorsport held on clay or dirt surfaced oval race tracks. A sport that requires high concentration, technique, determination and an element of risk to reach the top.

Seth Norman, from Banbury, is a British ranked junior speedway rider. Having been a self-funded rider by his family in his early years, Seth is now growing into his teenage years; with that comes more competitive races, raced at higher speeds. Therefore, Seth needs the most up to date equipment to aid his progression to still compete at a high level.

The funding from Legacy Leisure will pay for vital protective equipment such as a new protective neck brace and a new race helmet. The new equipment will not only enable Seth to compete at the level someone of his age and talent should, but also to compete at more events - once progressing into an older age category, the more choice of events and trials to choose from.

Legacy Leisure branding will sit on Seth's new helmet as well as the young talent appearing at Spiceball Leisure Centre's next open day in response to the funding he's received.
