BACKGROUND

An affiliation ongoing since the 1990s, Legacy Leisure and Desborough Leisure Centre have stepped up to support North Northants Gymnastics Club with a donation of £500.

The British Gymnastics affiliated club is open to girls and boys aged from 5-11yrs. The gymnastic sessions run hourly on Saturday mornings from 09:00 - 13:00, depending on age.

Whilst the club is there to spot talent and enhance participants ability, there is a core focus on fun whilst improving a range of different skills such as, balance, flexibility, strength and overall fitness.

The funding from Legacy Leisure will have a specific focus on continuing to train gymnast coaches to the required standard and purchasing new equipment.

Gymnastics requires very specific equipment, often very heavy and not easily transportable. Some of the money will go towards beam feet trolleys, which will allow the club access to heavier equipment. In addition to the trolleys, the money has enabled the purchase of a brand new crash mat to enable soft landings for the children.

Overall, the money helps increase the quality of service the club has to offer, in turn making it a more appealing place for children to take up gymnastics. High quality coaching and equipment will ensure the club continues to progress, encouraging the local community to continue to take their children to the sessions.
