BRIGHT STAR SPORTS

Working in Partnership
with your Local Authority

LegacyLeisure.org.uk

BACKGROUND

Developed by three Olympians and professional badminton players, Bright Star Sports' primary focus is to provide weekly and school holiday coaching camps for children.

Operating across three counties, Derbyshire, Hertfordshire and Hampshire, the primary aim is for children to progress through the programme developed by Bright Star Sports, in order to learn more technical sport-specific skills and knowledge.

The programme aims to build confidence and competencies, giving children an early fun introduction to sport and activities. This early introduction should enable participants to move on to partake in badminton and other sports in a wider environment.

Bright Star Sports' professional experience, expertise and passion for the sport of badminton shines through in the excitement and energy that goes into each of their sessions. Weekly club sessions in Derby, Watford and Fleet introduce the sport to as many young people as possible.

Whether their goals are to simply have fun with friends or develop further and move on to programmes to represent their county, Bright Star Sports want to encourage and help young people to reach their goals.

The funding from Legacy Leisure will support Bright Star Sports in setting up new sessions to continue their goal of introducing young people to sporting activities and opportunities. The team were delighted to gain this support, and will now be able to better publicise their existing offers, invest in sports equipment to continue to develop, and continue providing opportunities for young people to be involved with the sport from an early age.
