**IMPROVING ACCESS TO SPORT THROUGH
U3A PICKLEBALL**

Working in Partnership
with your Local Authority

LegacyLeisure.org.uk

BACKGROUND

Community grant funding from Legacy Leisure will help attract more people to U3A Pickleball at Towcester Leisure Centre, promoting the sport to support the activity and the health and wellbeing of the local community.

Aimed at players aged 55 and older, U3A Pickleball at Towcester Leisure Centre began just three years ago, starting with just six members attending.

Now, pickleball is the fastest growing sport in the UK, and the club has over 40 members. This funding will be instrumental in growing the sport in the area, covering additional nets, paddles and equipment to allow more members to join, take part and play pickleball.

The additional equipment will also help to lower the barrier to entry, offering a fun, active activity for the local community while growing the sport.
